SUMMARY

Recent graduate of Le Wagon's intensive **Web Development bootcamp** with a **background in events**, looking to pivot into tech as a **front-end developer**. Proficient in **HTML, CSS, JavaScript**, and **React**. I bring a strong eye for design and a passion for creating engaging **user experiences**. Eager to apply my skills and continue learning in a dynamic tech environment.

PROJECTS

Bark Buddies

03/2024 - 04/2024 London

Social web app for dog owners built on Ruby on Rails

- Integrated UI responsiveness through JavaScript, Stimulus.js, Sass, and Bootstrap.
- Directed a team of four developers, leveraging Notion for streamlined project management and collaboration.
- Conducted regular code reviews and provided mentorship to team members, fostering a collaborative development environment.
- Achieved successful deployment and branding by securing a domain name and launching the application on Heroku.

Hide n Seek

03/2014 - 03/2024 London

Airbnb clone website built on Ruby on Rails, in collaboration with four other developers

- Web app deployed to production using Heroku. Implemented core Rails concepts: routing, controllers, views, models, and CRUD operations.
- Utilised Cloudinary's robust API to efficiently handle image storage, transformation, and delivery.
- Employed Git and GitHub for version control and collaboration.
